Two Local Companies Partner for Earth Day Event *Real Green and APR aim to provide PLANET with more green spaces*

Farmington Hills, MI. – To commemorate Earth Day 2009, Real Green Systems is joining forces with American Profit Recovery to participate in the Professional Landcare Network (PLANET) Day of Service. Both businesses look to do their part toward the April 22nd worldwide movement on a local level by providing volunteers to mulch and plant iris flowers at the Costic Center from 1:00 to 5:00 p.m. Real Green and APR are pleased to work together on this first-time event as service industry partners. Together, they look forward to completing a project that benefits the community and gives them an opportunity to aim toward their goal of providing exceptional customer service.

Real Green is one of more than 4,200 member companies and affiliates and 100,000 green industry professionals belonging to PLANET. The association of lawn care and landscape industry professionals strives to maintain quality of life in communities across America. The PLANET Day of Service gives members the opportunity to plan, organize and carry out a project that benefits their community. Members of APR will act as volunteers to help Real Green fulfill their landscape vision at the Costic Center. APR will provide man power and supplies needed for the project.

Dedication to customer service and satisfaction coupled with experience allows Real Green Systems to guarantee their work. The partnership between Real Green, a software developer for the lawn care, pest control, landscape and maintenance industries, and APR, a collection agency, is unique. As a team they are both eager to demonstrate their dedication to the serving the community on this Earth Day event by revitalizing an area everyone can enjoy.

PLANET emerged on January 1, 2005, when the Associated Landscape Contractors of America (ALCA) and the Professional Lawn Care Association of America (PLCAA) joined forces to become a more encompassing network of green industry professionals. PLANET encourages lawn care and landscape industry professionals to play a vital role as stewards of the world's green spaces like parks, schools, and public grounds. For more information visit LandcareNetwork.org.

American Profit Recovery (APR) is a collection agency with offices in Massachusetts, Michigan, North Carolina and Kentucky. Founded in 2004, APR specializes in the collection of third-party debt in industries such as medical/dental, banking, trades, lawn care and other professional services. The firm serves approximately 2300 clients.

Real Green Systems has been working to specialize and develop software for the lawn care, pest control, landscape and maintenance industries for over 25-years. They have a broad range of business and technology services that deliver real business results in real time. Real Green's goal is to provide customers with the most current technology and widest range of features available to make them as successful as possible.
