

American Profit Recovery receives two awards

American Profit Recovery (APR), a Marlborough-based collection agency, was recently recognized for its excellence in the collections industry with two separate awards: a 2008 Best Places to Work in Collections award and the Collection Advisor Magazine's 50-Most Influential Collection Professionals award. The Best Places award, created by insideARM.com and Best Companies Group, is designed to identify the best places of employment in the collections industry. Companies from across the country were evaluated on workplace policies, practices, philosophy, systems and demographics. Companies receiving the Collection Advisor award were chosen for their exceptional leadership, collection methods and insight that makes them market leaders. This is the second year in a row APR has received this award.
